Alice in Kanji Land is a creative reinterpretation of Lewis Carroll's beloved story, transformed into a visual and linguistic voyage where each character and setting is represented through kanji-logographic characters used in Japanese writing derived from Chinese characters. The project originated as an art installation and digital multimedia series by a Japanese artist collective, aiming to explore the interplay between language, identity, and storytelling.

The core idea revolves around personifying each element—be it characters, objects, or concepts—using kanji that encapsulate their essence. For example, Alice might be represented by a kanji that signifies curiosity or innocence, while the Queen of Hearts could embody a character symbolizing authority or passion. The narrative then unfolds within this kanji universe, creating a layered experience that combines visual artistry with linguistic symbolism.

The visual design of Alice in Kanji Land is rooted in a delicate balance between clarity and abstraction. The artists employ a meticulous approach to render each kanji in a style that resonates with the story's whimsy and mystery. Key elements include:

- Use of vibrant color palettes to differentiate characters and environments.
- Incorporation of traditional ink wash backgrounds to evoke a sense of timelessness.

Kanji as Symbols of Identity

One of the most compelling aspects of Alice in Kanji Land is its exploration of how language shapes identity. By personifying characters through specific kanji, the project underscores the layered meanings contained within each logogram. This approach prompts viewers to consider:

- How do chosen kanji reflect the true nature of characters?
- Can a single kanji encapsulate a complex personality?
- How does the visual form of a kanji influence perception?

For instance, Alice's embodiment by ? emphasizes her inquisitiveness, but the character's components—such as ? (woman) and ? (child)—also suggest innocence and femininity. This duality invites viewers to interpret characters beyond their surface.
