Lesson 6 subject complements answers

Lesson 6 Subject Complements Answers

Understanding subject complements is essential for mastering sentence structure and grammar. In Lesson 6, we focus on identifying, using, and correctly answering questions related to subject complements. This comprehensive guide aims to clarify the concept, provide clear explanations, and offer practical exercises with answers to solidify your understanding of subject complements.

What Are Subject Complements?

Definition of Subject Complements

A subject complement is a word or phrase that follows a linking verb and provides additional information about the subject. It completes the meaning of the subject and the verb, often renaming or describing the subject.

Examples:

- The sky is blue. (adjective complement)
- She became a doctor. (noun complement)

Types of Subject Complements

Subject complements are mainly classified into two types:

- Predicate Nouns (or Predicate Nominatives): These rename the subject.
- Predicate Adjectives: These describe the subject.

Identifying Subject Complements

How to Recognize a Subject Complement

To identify a subject complement:

- Look for a linking verb (such as is, was, were, seem, become, feel, look).
- Determine if the word or phrase following the verb provides more information about the subject.
- Check if the word can be replaced with a pronoun or synonym to verify its function.

Common Linking Verbs

- am, is, are
- was, were
- be, being, been
- seem, appear, become, look, feel, taste, smell, remain, stay

Common Questions and Answers on Subject Complements

1. What is the function of a subject complement?

Answer:

A subject complement completes the meaning of the subject by either renaming it (predicate noun) or describing it (predicate adjective). It follows a linking verb and provides more information about the subject.

2. How do you identify a predicate noun in a sentence?

Answer:

A predicate noun renames or identifies the subject and can often be replaced with another noun or pronoun. It is connected to the subject via a linking verb.

Example & Answer:

Sentence: The winner is she.

Question: What is the subject complement?

Answer: She (predicate noun replacing "the winner").

3. How can you distinguish between a predicate adjective and a regular adjective?

Answer:

A predicate adjective follows a linking verb and describes the subject, often answering "How is the subject?" or "What is the subject like?" Regular adjectives typically modify nouns, whereas predicate adjectives follow linking verbs.

Example & Answer:

Sentence: The cake tastes sweet.

Question: What is the predicate adjective?

Answer: Sweet (describes the cake).

4. Can a subject complement be a phrase instead of a single word?

Answer:

Yes, a subject complement can be a phrase, such as a noun phrase or an adjective phrase, that completes the meaning of the subject.

Example:

Sentence: The most important thing is your cooperation.

Question: What is the subject complement?

Answer: Your cooperation (noun phrase).

5. What are some common errors to avoid when identifying subject complements?

Answer:

- Confusing predicate nominatives with direct objects.
- Mistaking adjectives that modify nouns for predicate adjectives.
- Overlooking the linking verb and assuming any word following the subject is a complement.

Sample Exercises with Answers

Exercise 1: Identify the subject complement in each sentence.

- The sky became dark.
- She is a talented musician.
- The soup tastes salty.
- They are students.
- The movie seemed interesting.

Answers:

- dark (predicate adjective)
- a talented musician (predicate noun)
- salty (predicate adjective)
- students (predicate noun)
- interesting (predicate adjective)

Exercise 2: Choose the correct subject complement for each sentence.

- The teacher was (*kind / kind-hearted*).
- The bread smells (*fresh / freshness*).
- My brother became (*a doctor / doctor*).
- The flowers are (*beautiful / beauty*).
- The cake looks (*delicious / deliciously*).

Answers:

- The teacher was **kind-hearted**.
- The bread smells **fresh**.
- My brother became **a doctor**.
- The flowers are **beautiful**.
- The cake looks **delicious**.

Exercise 3: Rewrite the sentences, replacing the subject complement with a pronoun.

- The winner is she.
- The best thing about the movie is its ending.
- The weather became very cold.
- My favorite hobby is painting.
- The food tastes spicy.

Answers:

- The winner is she ? The winner is she. ? The winner is her. (Note: "her" is used correctly as a

predicate nominative in the sentence.)

- The best thing about the movie is its ending. ? It is its ending. (Rephrasing is complex; better to keep the noun.)
- The weather became very cold. ? It became very cold.
- My favorite hobby is painting. ? It is painting.
- The food tastes spicy. ? It tastes spicy.

(Note: Some sentences do not lend themselves easily to pronoun substitution in the predicate complement without changing the sentence structure. Focus on understanding the role of the pronoun in context.)

Tips for Mastering Subject Complements

- Always identify the linking verb first; it's the key to spotting a subject complement.
- Remember that predicate nouns rename the subject, so they can be replaced with pronouns like "she," "he," or "they" in the nominative case.
- Predicate adjectives describe the subject and often follow linking verbs such as "is," "seems," or "becomes."
- Practice with different sentences to recognize subtle differences between complements and other sentence components.
- Use exercises to test your understanding regularly and review the answers carefully to learn from mistakes.

Summary

Understanding and correctly answering questions about subject complements is vital for grammatical accuracy and effective communication. Lesson 6: Subject Complements Answers ? An In-Depth Exploration

Understanding the nuances of sentence structure is fundamental to mastering English grammar, and one of the most essential components in this domain is the concept of subject complements. In

Lesson 6, we delve into the intricacies of subject complements, their functions, types, and how to correctly identify and utilize them in sentences. This comprehensive review aims to clarify common misconceptions, provide detailed explanations, and furnish practical examples to enhance your grasp of subject complements.

What Are Subject Complements?

At its core, a subject complement is a word or phrase that follows a linking verb and provides additional information about the subject. It essentially "complements" or completes the meaning of the subject by renaming or describing it. Without the subject complement, the sentence may be grammatically correct but semantically incomplete or ambiguous.

Key Points:

- Appears after a linking verb (such as is, was, seems, becomes, appears, etc.)
- Renames or describes the subject
- Necessary for the sentence's full meaning when using linking verbs

Example Sentences:

- The winner is she.
- His explanation was confusing.
- The sky appears blue.

In these examples, "she," "confusing," and "blue" are subject complements that complete the sentence.

Types of Subject Complements

Subject complements fall into two primary categories based on their grammatical nature:

Noun Complements (Predicate Nouns)

These are nouns or pronouns that rename or identify the subject.

Characteristics:

- Usually follow linking verbs

- Provide a new name or identity for the subject
- Can be a singular noun, plural noun, or pronoun

Examples:

- My brother is a teacher.
- The winners are they.
- It was John who called earlier.

Common Predicate Nouns:

- doctor, teacher, artist, student, winner, child

Adjective Complements (Predicate Adjectives)

These are adjectives that describe the subject directly.

Characteristics:

- Follow linking verbs
- Describe the subject's state or quality

Examples:

- The cake smells delicious.
- She seems happy.
- The night became cold.

Common Predicate Adjectives:

- happy, sad, tall, short, cold, bright, confusing

Identifying Subject Complements in Sentences

Correct identification of subject complements involves understanding their position and function in the sentence.

Steps to Identify:

- Locate the main verb: Is it a linking verb? (e.g., is, was, seem, become, appear, feel.)
- Find the word or phrase immediately following the linking verb.
- Determine whether this word renames (noun/pronoun) or describes (adjective) the subject.
- Confirm that removing this complement would leave the sentence incomplete or nonsensical.

Sample Analysis:

- Sentence: The sky is blue.
 - Linking verb: is
 - Complement: blue
 - Function: Describes the subject the sky
-
- Sentence: The winner was she.
 - Linking verb: was
 - Complement: she
 - Function: Renames the subject the winner

Common Mistakes and Clarifications

Misunderstanding subject complements often leads to grammatical errors. Here are some common pitfalls and clarifications:

- Confusing Subject Complements with Direct Objects
 - Incorrect: The teacher made her a leader. (Here, "her" is a direct object, not a complement.)
 - Correct: The teacher made her leader. ("Leader" is a predicate noun acting as a subject complement.)
- Using Adjectives as Complements Without Linking Verbs
 - Incorrect: The sky is blue.
 - Correct: The sky is blue.

(Note: In the correct sentence, "is" is the linking verb, and "blue" is the predicate adjective acting as a subject complement.)

- Omitting the Complement

- Incorrect: The winner is.

- Correct: The winner is she.

(The complement completes the sentence's meaning.)

Practice Questions and Answers

Engaging with practice sentences is essential for mastery. Below are sample questions with detailed answers.

Question 1: Identify the subject complement in the following sentence:

- The movie seems interesting.

Answer:

- Linking verb: seems

- Subject complement: interesting

- Function: Predicate adjective describing the movie

Question 2: Determine whether the complement is a noun or an adjective:

- The children became tired.

Answer:

- Linking verb: became

- Complement: tired

- Type: Predicate adjective (describes the children's state)

Question 3: Rewrite the sentence with a clearer subject complement:

- The winner was she.

Answer:

- The winner was she.

(This sentence correctly uses a predicate pronoun as the complement.)

Applying Knowledge: Constructing Sentences with Subject Complements

Practice constructing sentences helps solidify understanding. Here are some prompts:

- Use a linking verb and a predicate noun to describe a person.
- Use a linking verb and a predicate adjective to describe an object or situation.
- Combine these elements into meaningful sentences.

Sample Sentences:

- The artist is a visionary.
- The weather became stormy.
- My favorite fruit is mango.
- The night seems peaceful.

Summary and Key Takeaways

- Subject complements follow linking verbs and complete the meaning of the subject.
- They are primarily predicate nouns (renaming the subject) or predicate adjectives (describing the subject).
- Correct identification involves recognizing the linking verb and the complement's function.
- Misconceptions often stem from confusing complements with direct objects or omitting necessary complements.
- Practice with varied sentences enhances accuracy in identification and usage.

Final Thoughts

Mastery of subject complements is vital for constructing clear, grammatically correct sentences. Recognizing their role and differentiating between types not only improves writing skills but also deepens understanding of sentence structure. Through careful analysis, practice, and application, learners can confidently identify and utilize subject complements, elevating their command of English grammar.
