- Agate: Known for its fine banding and durability, often used for more intricate and durable cameos.
- Coral and other organic materials: Less common but historically significant.
- Semi-precious stones: Including onyx, carnelian, and malachite, used for their vibrant colors and layering potential.

Carving Techniques

Creating a cameo involves meticulous craftsmanship and a mastery of carving techniques:

- Selection of the Stone: An artisan chooses a layered stone with contrasting colors suitable for the desired design.
- Design Planning: Artists sketch or conceptualize the motif, often inspired by mythology, portraiture, or nature.
