1. Budget Categories

The simulation offers various sectors where funds can be allocated, including:

Each category reflects a real-world government department or program, with differing priorities depending on the scenario.

2. Scenario Context

The activity usually provides a background story such as responding to a crisis, balancing a budget deficit, or preparing for an election that influences the optimal distribution of funds.

3. Budget Constraints

Players are given a specific total budget (e.g., \$1 billion), restricting how funds can be distributed, thus requiring prioritization and strategic decision-making.
