- The social structure was tightly knit, with a focus on communal discipline and religious conformity.

Political and Social Tensions

- The colony faced external threats from neighboring colonies and Native American tribes.
- Internal conflicts arose over land, authority, and religious practices.
- The fear of witchcraft was compounded by existing tensions, making accusations more likely.

The Causes and Triggers of the Witch Trials

Superstition and Religious Beliefs

- Widespread belief in the Devil and witches as agents of evil.

- The Puritan doctrine held that Satan was actively working within the community.
- Fear of the supernatural fueled suspicion and accusations.

Socioeconomic Factors

- Land disputes and economic grievances sometimes led to accusations to settle scores.
- Women, especially those who were widowed or otherwise marginalized, were more vulnerable to suspicion.
- The trials reflected underlying societal tensions and anxieties.

Specific Incidents Leading to the Trials

- The initial accusations were made by a group of young girls exhibiting strange behaviors.
- The use of "spectral evidence"—testimony that the accused's spirit was tormenting the accusers—was accepted in court, escalating the hysteria.
- The publication of inflammatory pamphlets and sermons further fueled the panic.

The Key Figures in the Salem Witch Trials

- Modern legal standards reject such evidence, but it was accepted then.

Outcome of the Trials

- Approximately 200 people were accused.
- 19 individuals were executed, mostly by hanging.
